Rat monoclonal anti-mouse VEGFR2

ORDERING INFORMATION

Catalog No:	mAP-0002
Size:	100 µg
Storage:	< -20 ° C
Immunogen:	Mouse VEGFR2 extra-cellular domain
Ig Type:	Rat IgG2
Clone:	RM0002-7A23
Applications:	WB & IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with purified mouse VEGFR2 extracellular domain).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse VEGFR2 in western blot. No cross-reactivity to mouse VEGFR1 and VEGFR3. Cross reactivity to other species has not been tested!

Applications:

- | | | |
|---|------------|--------------------|
| 1. Western blot | Yes | (1:200-800) |
| 2. Immunohistochemistry (Frozen Section) | Yes | (1:50-100) |
