

Rat monoclonal anti-mouse FGF-R2

ORDERING INFORMATION

Catalog No:	mAP-0025
Size:	100 µg
Storage:	< -20 ° C
Immunogen:	Mouse FGF-R2 extracellular domain
Ig Type:	Rat IgG2
Clone:	RM0025-7C24
Applications:	WB and IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with purified recombinant mouse FGF-R2 extracellular domain).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse FGF-R2 in western blot. Cross reactivity to FGF-R2 of other species has not been tested!

Applications:

1.	Western blot	Yes	(1:100-1000)
2.	IHC (Paraffin)	Yes	(1:50-200)

Paraffin kidney and lung sections from LPS treated mice were subjected to IHC using anti FGF-R2 antibody **RM0025-7C24**

For Research Use Only
