

Rat monoclonal anti mouse Endostatin

ORDERING INFORMATION

Catalog Number:	mAP-0060
Size:	100 µg
Storage:	< -20° C
Immunogen:	Recombinant Mouse Endostatin Protein
Ig Type:	Rat IgG2
Clone	RM0060-3H11
Applications:	WB and IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with cell lysates of Recombinant Mouse Endostatin Protein).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein A/G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500 µl sterile PBS (final concentration 200µg/ml). Reconstituted antibody can be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody was selected for its ability to detect mouse endostatin protein by WB.

Application(s)

1.	WB	Yes	(1:50-1000)
2.	IHC (paraffin)	Yes	(1:50-200)

Paraffin lung and spleen sections from LPS treated mice were subjected to IHC using anti FGF-R2 antibody **RM0060-3H11**

For Research Use Only
