

Epithelial Growth Medium (EpGM)
ORDERING INFORMATION

Product Name	Epithelial Growth Medium (EpGM)
Catalog No:	cAP-45
Size:	500ml
Storage:	4°C

Product Description

Epithelial Growth Medium (EpGM) is freshly prepared by mixing the following two components: (1) 450ml of Epithelial Basal Medium (EpBM, cAP-45B) and (2) 50ml of Epithelial Growth Supplement (Not Available Separately), which contains the essential nutrients for Epithelial Cells growth (including 10% fetal bovine serum, recombinant growth factors, and 1x penicillin and streptomycin).

Shipping Condition: Ambient temperature or blue ice (seasonally)

Storage Condition: The EpGM is stored at 4°C. A change in color or appearance of precipitate may indicate deterioration.

Shelf Life: The EpGM: at least 2 months from the date of receipt under proper storage condition.

THESE PRODUCTS ARE FOR RESEARCH USE ONLY

Caution: Handling human and animal tissue derived products is potentially bio-hazardous. Although each cell strain is tested negative for HIV, HBV and HCV DNA, or pathogens, diagnostic tests are not necessarily 100% accurate; therefore proper precautions must be taken to avoid inadvertent exposure. Always wear gloves and safety glasses when working with these materials. Never mouth pipette. We recommend following the universal procedures for handling products of human origin as the minimum precaution against contamination.
