

Polyclonal Sheep anti Human α 1B-Glycoprotein

ORDERING INFORMATION

Catalog Number:	hAP-5022
Size:	50 μ g
Storage:	< -20 °C
Immunogen:	Human embryonic kidney cell line HEK293-derived recombinant human α 1B-Glycoprotein
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB

Preparation:

This antibody was produced from a sheep immunized with purified human α 1B-Glycoprotein protein.

Formulation and Storage:

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 μ m filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution:

Reconstitute the antibody with 100 μ l sterile PBS and the final concentration is 500 μ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity:

This antibody recognizes human α 1B-Glycoprotein in direct ELISAs. Cross reactivity to other species has not been tested!

Applications:

Western Blots : Yes 1:1000-2000

Optimal dilutions should be determined by each laboratory for each application.

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!

This product is sold for Research Use Only !
