

## Polyclonal Sheep anti Human CAM KINASE II $\Delta$

### ORDERING INFORMATION

Catalog Number:	hAP-5059
Size:	50 $\mu$ g
Storage:	< -20 $^{\circ}$ C
Immunogen:	E. coli-derived recombinant human CAM KINASE II $\Delta$
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB IHC

### *Preparation:*

This antibody was produced from a sheep immunized with purified human CAM KINASE II $\Delta$  protein.

### *Formulation and Storage:*

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2  $\mu$ m filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70 $^{\circ}$ C.

### *Reconstitution:*

Reconstitute the antibody with 100  $\mu$ l sterile PBS and the final concentration is 500 $\mu$ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20  $^{\circ}$ C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

### *Specificity:*

Detects human CaM Kinase II $\delta$  isoforms. No cross-reactivity with recombinant human CaM Kinase II $\alpha$ , CaM Kinase II $\beta$ , or CaM Kinase II $\gamma$  is observed.

### *Applications:*

WB	Yes	1 : 1000 - 2000
IHC (Paraffin / Frozen)	Yes	1 : 50 - 100

*Optimal dilutions should be determined by each laboratory for each application.*

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!

**This product is sold for Research Use Only !**
