

Polyclonal Sheep anti Human CYTOKERATIN 18

ORDERING INFORMATION

Catalog Number:	hAP-5122
Size:	50 µg
Storage:	< -20 °C
Immunogen:	E. coli-derived recombinant human CYTOKERATIN 18
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB

Preparation:

This antibody was produced from a sheep immunized with purified human CYTOKERATIN 18 protein.

Formulation and Storage:

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution:

Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity:

Detects human Cytokeratin 18 in direct ELISAs and Western blots. In direct ELISAs, less than 1% cross-reactivity with recombinant human Cytokeratin 14 (KRT14) is observed.

Applications:

WB	Yes	1 : 1000 - 2000
IHC (Paraffin / Frozen)	Yes	1 : 50 - 100

Optimal dilutions should be determined by each laboratory for each application.

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
