

# Polyclonal Sheep anti Human Glucosaminyl (N-acetyl) Transferase 1/GCNT1

## ORDERING INFORMATION

Catalog Number:	hAP-5198
Size:	50 µg
Storage:	< -20 °C
Immunogen:	Mouse myeloma cell line NS0-derived recombinant human Glucosaminyl (N-acetyl) Transferase 1/GCNT1.
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB ICC

### ***Preparation:***

This antibody was produced from a sheep immunized with purified human Glucosaminyl (N-acetyl) Transferase 1/GCNT1 protein.

### ***Formulation and Storage:***

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

### ***Reconstitution:***

Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

### ***Specificity:***

Detects endogenous human Glucosaminyl (N-acetyl) Transferase 1/GCNT1 in direct ELISAs and Western blots. Less than 1% cross reactivity. Cross reactivity to other species has not been tested!

### ***Applications:***

WB	Yes	1 : 1000 - 2000
ICC	Yes	1 : 100 - 200

*Optimal dilutions should be determined by each laboratory for each application.*

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!

**This product is sold for Research Use Only !**
