Mouse Monoclonal anti human Carbonic Anhydrase VI (CA6)

ORDERING INFORMATION

Catalog No:	hAP-0677
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human CA6
Ig Type:	mouse IgG2
Clone:	MM0677-6B14
Applications:	FC, WB and IP

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with recombinant human CA6).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human CA6 in direct ELISA and WB. In Western blots, no cross-reactivity with recombinant human CA2, 3, 4, 5A, 5B, 7, 8, 9 is observed.

Applications:

1.	FC	Yes	
2.	WB	Yes	1:1000-2000
3.	IP	Yes	

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
