Mouse Monoclonal anti human CRISP-3

ORDERING INFORMATION

Catalog No:	hAP-0705
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human CRISP-3
Ig Type:	Mouse IgG1
Clone:	MM0705-10F93
Applications:	WB and IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with Recombinant human CRISP-3).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human CRISP-3 in direct ELISAs and Western blots. In Western blots, no cross reactivity with CRISP-2 is observed.

Applications:

1.	WB	Yes	1:500-1000
2.	IHC	Yes	1:50-100

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
