Mouse Monoclonal anti human Estrogen receptor alpha (ER alpha)

ORDERING INFORMATION

Catalog No:	hAP-0723
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human ER alpha
Ig Type:	Mouse IgG2
Clone:	MM0723-31Z29
Applications:	IHC and WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with recombinant human ER alpha (also called Estradiol receptor and NR3A1)).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human ER alpha in direct ELISAs and Western blots.

Applications:

1.	IHC	Yes	1:50-200
2.	WB	Yes	1:1000-2000
