

# Mouse Monoclonal anti human NM23-H1

## ORDERING INFORMATION

|                      |                                  |
|----------------------|----------------------------------|
| <b>Catalog No:</b>   | <b>hAP-0841</b>                  |
| <b>Size:</b>         | <b>100µg</b>                     |
| <b>Storage:</b>      | <b>&lt;-20°C</b>                 |
| <b>Immunogen:</b>    | <b>Recombinant human NM23-H1</b> |
| <b>Ig Type:</b>      | <b>Mouse IgG2</b>                |
| <b>Clone:</b>        | <b>MM0841-13E35</b>              |
| <b>Applications:</b> | <b>WB</b>                        |

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells) from a mouse immunized with Recombinant human NM23-H1 (Non-metastatic protein 23 homolog 1, also called NDKA).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody recognizes human NM23-H1, not NM23-H2, in direct ELISAs and WBs.

### **Applications:**

|           |           |            |                    |
|-----------|-----------|------------|--------------------|
| <b>1.</b> | <b>WB</b> | <b>Yes</b> | <b>1:1000-2000</b> |
|-----------|-----------|------------|--------------------|

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.**
