

Rat Monoclonal anti Mouse Interleukin-34 (IL-34)

ORDERING INFORMATION

Catalog No:	mAP-0572
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant Mouse IL-34
Ig Type:	Rat IgG2
Clone:	RM0572-12C43
Applications:	Neutralization

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse Interleukin-34 (IL-34). IL-34 is also called uncharacterized protein C16orf77 homolog and is a 39kDa, secreted cytokine that belongs to no known cytokine family.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse IL-34 by direct ELISAs.

Applications:

1. Neutralization	Yes
--------------------------	------------

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
