

Mouse Monoclonal anti Human VECadherin

| | |
|-------------------------|---|
| Catalogue Number | hAP-0012 |
| Size/Concentration | 100µg |
| Immunogen | Extracellular domain of human VECadherin recombinant protein |
| Clone Name | MM0012-8A03 |
| Antibody Isotype | Mouse IG1 |
| Preparation | This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with Extracellular domain of human VE-Cadherin recombinant protein) |
| Formulation and Storage | The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C. |
| Specificity | In western blots this antibody shows no cross-reactivity with E-Cadherin, and P-Cadherin. |
| Reconstitution | Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. Avoid repeated freeze-thaw cycles |
| Applications | A: WB-(1 to 1000-2000) B: ELISA-(1 to 1000-3000) C: IHC-(1 to 100-200) D: |
| Shipping | Regular FEDEX overnight shipment (ambient temperature) |

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the end user! This product is sold for **Research Use Only**
