

Mouse Monoclonal anti Human DGK-gamma

ORDERING INFORMATION

Catalog No:	hAP-0983
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human DGK-gamma
Ig Type:	Mouse IgG2
Clone:	MM0983-9E36
Applications:	WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells) from a mouse immunized with recombinant human DGK-gamma (Diacylglycerol kinase gamma), DGK-gamma is a 90 kDa type I member of the eukaryocytic diacylglycerol kinase family of enzymes.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human DGK-gamma in direct ELISAs and WBs. It cross reacts with mouse and rat DGK-gamma in WBs.

Applications:

1.	WB	Yes	1:1000-2000
