

## Mouse Monoclonal anti Human PIM2

### ORDERING INFORMATION

|                      |                               |
|----------------------|-------------------------------|
| <b>Catalog No:</b>   | <b>hAP-1066</b>               |
| <b>Size:</b>         | <b>100µg</b>                  |
| <b>Storage:</b>      | <b>&lt;-20°C</b>              |
| <b>Immunogen:</b>    | <b>Recombinant human PIM2</b> |
| <b>Ig Type:</b>      | <b>Mouse IgG2</b>             |
| <b>Clone:</b>        | <b>MM1066-13L16</b>           |
| <b>Applications:</b> | <b>WB</b>                     |

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells) from a mouse immunized with recombinant human PIM2. It is one of the three members of the Pim family of proto-oncogenes encoded the serine/threonine kinases PIM1, PIM2, and PIM3.

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody recognizes human PIM2 direct ELISAs and WBs. It cross reacts with mouse and rat PIM2 in WBs.

### **Applications:**

|           |           |            |                    |
|-----------|-----------|------------|--------------------|
| <b>1.</b> | <b>WB</b> | <b>Yes</b> | <b>1:1000-2000</b> |
