

Rat Monoclonal anti Human PON3

ORDERING INFORMATION

Catalog No:	hAP-1075
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human PON3
Ig Type:	Rat IgG2
Clone:	MM1075-29P7
Applications:	WB

Preparation: This antibody was produced from a hybridoma (rat myeloma fused with spleen cells) from a rat immunized with recombinant human PON3 (Paraoxonase-3). PON3 is a 39kDa protein that is secreted into the bloodstream and associates with high-density lipoprotein (HDL)..

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human PON3 in direct ELISAs and WBs. It cross reacts with mouse and rat PON3 in WBs.

Applications:

1.	WB	Yes	1:1000-2000
