

Sheep Polyclonal anti Human P-Selectin (CD62P)

Catalogue Number	hAP-5418
Size/Concentration	50µg
Immunogen	Chinese hamster ovary cell line CHO-derived recombinant human P-Selectin/CD62P
Clone Name	Polyclonal AB
Antibody Isotype	IgG
Preparation	This antibody was produced from a sheep immunized with purified human P-Selectin/CD62P protein.
Formulation and Storage	The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.
Specificity	Detects human P-Selectin/CD62P in direct ELISAs and Western blots. In direct ELISAs, approximately 5% cross-reactivity with recombinant mouse P-Selectin and recombinant rat P-Selectin is observed, and less
Reconstitution	Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. Avoid repeated freeze-thaw cycles.
Applications	A: WB-(1 to 1000-2000) B: N/B-Yes C: D:
Shipping	Regular FEDEX overnight shipment (ambient temperature)

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
