

## Rat Monoclonal anti Mouse FGF R3

|                                |  |
|--------------------------------|--|
| <b>Cataloge Number</b>         | mAP-0159   |
| <b>Size/Concentration</b>      | 100µg  |
| <b>Immunogen</b>               | Mouse recombinant protein FGF R3   |
| <b>Clone Name</b>              | RM0159-7M13  |
| <b>Antibody Isotype</b>        | Rat IgG2   |
| <b>Preparation</b>             | This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse recombinant protein FGF R3).  |
| <b>Formulation and Storage</b> | The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.    |
| <b>Specificity</b>             | This antibody recognizes FGF R3 (IIIb and IIIc) by ELISA. Cross reactivity to other species has not been tested!   |
| <b>Reconstitution</b>          | Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
| <b>Applications</b>            | A: N/B-Yes<br>B:<br>C:<br>D:   |
| <b>Shipping</b>                | Regular FEDEX overnight shipment (ambient temperature)   |

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
