

## **Rat Monoclonal anti Mouse CD63**

### **ORDERING INFORMATION**

|                      |                               |
|----------------------|-------------------------------|
| <b>Catalog No:</b>   | <b>mAP-0392</b>               |
| <b>Size:</b>         | <b>100µg</b>                  |
| <b>Storage:</b>      | <b>&lt;-20°C</b>              |
| <b>Immunogen:</b>    | <b>Recombinant mouse CD63</b> |
| <b>Ig Type:</b>      | <b>Rat IgG1</b>               |
| <b>Clone:</b>        | <b>RM0392-13Q13</b>           |
| <b>Applications:</b> | <b>IHC-F</b>                  |

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse CD63 (also called LAMP-3 or ME491), which is a 30-60 kDa member of the tetraspanin superfamily of protein trafficking proteins.

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody recognizes mouse CD63 by direct ELISAs.

### **Applications:**

|           |              |            |                 |
|-----------|--------------|------------|-----------------|
| <b>1.</b> | <b>IHC-F</b> | <b>Yes</b> | <b>1:50-200</b> |
|-----------|--------------|------------|-----------------|

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
