

Rat Monoclonal anti Mouse ESAM

ORDERING INFORMATION

Catalog No:	mAP-0422
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant mouse ESAM
Ig Type:	Rat IgG2a
Clone:	RM0422-14D28
Applications:	IHC-F

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse Endothelial cell-selective adhesion molecule (ESAM), which is a 55 kDa type I transmembrane glycoprotein belonging to the CTX (cortical thymocyt marker in Xenopus) family of cell adhesion molecules within the immunoglobulin superfamily.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse ESAM by direct ELISAs.

Applications:

1.	IHC-F	Yes	1:50-200
-----------	--------------	------------	-----------------

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
