

Rat Monoclonal anti Mouse IGFBP-7

ORDERING INFORMATION

Catalog No:	mAP-0446
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant mouse IGFBP-7
Ig Type:	Rat IgG2
Clone:	RM0446-12L17
Applications:	WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse IGF binding protein-7 (IGFBP-7), also called IGFBP-rp1 and Mac25, which is a 31-37 kDa secreted glycoprotein that belongs to the IGFBP superfamily of molecules.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse IGFBP-7 by direct ELISAs and WBs.

Applications:

1.	WB	Yes	1:1000-2000
