

Rat Monoclonal anti Mouse LRRC32

ORDERING INFORMATION

Catalog No:	mAP-0467
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant Mouse LRRC32
Ig Type:	Rat IgG1
Clone:	RM0467-11D8
Applications:	FC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse Leucine-rich repeat protein 32 (LRRC32), also known as GARP (glycoprotein A repetitions predominant). LRRC32 is an 80 kDa type I transmembrane glycoprotein.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse LRRC32 by direct ELISAs.

Applications:

1. FC Yes

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
