

Rat Monoclonal anti Mouse TNFRSF26

ORDERING INFORMATION

Catalog No:	mAP-0550
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant Mouse TNFRSF26
Ig Type:	Rat IgG2
Clone:	RM0550-2Y15
Applications:	FC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with recombinant mouse TNFRSF26 (tumor necrosis factor receptor superfamily member 26). TNFRSF26 is also called Tumor necrosis factor receptor homolog 3 (TNFRH3) and is a 21 kDa type I transmembrane protein and member of the TNF receptor superfamily.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500ul sterile PBS and the final concentration is 200ug/ml. Reconstituted antibody can also be aliquoted and stored frozen at <-20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes mouse TNFRSF26 by direct ELISAs.

Applications:

1.	FC	Yes
