

Sheep Polyclonal anti Mouse CCL4 (MIP-1 beta)

Catalogue Number	mAP-5072
Size/Concentration	50µg
Immunogen	E. coli-derived recombinant mouse CCL4/MIP-1 beta
Clone Name	Polyclonal AB
Antibody Isotype	IgG
Preparation	This antibody was produced from a sheep immunized with purified mouse CCL4/MIP-1 beta protein
Formulation and Storage	The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.
Specificity	Detects CCL4/MIP-1 beta in direct ELISAs and Western blots. In direct ELISAs, less than 5% crossreactivity with recombinant human (rh) MIP-1 beta and recombinant mouse (rm) MIP-1 gamma is observed and
Reconstitution	Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. Avoid repeated freeze-thaw cycles.
Applications	A: WB-(1:1000-2000) B: IHC(Paraffin/Frozen)-(1:50-100) C: N/B-Yes D:
Shipping	Regular FEDEX overnight shipment (ambient temperature)

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
