

## High Density Lipoprotein Human

Item Number	rAP-3178
Synonyms	High Density Lipoprotein, HDL.
Description	Human High Density Lipoprotein (HDL) produced in Human plasma.
Uniprot Accession Number	
Amino Acid Sequence	
Source	Human plasma.
Physical Appearance and Stability	Yellow to orange liquid. Human HDL although stable at 4°C for 1 week, should be stored below -15°C (short term i.e. < 3 months) and below -70°C for long term.
Formulation and Purity	Cholesterol level >200mg/l. <1% LDL.
Application	
Solubility	
Biological Activity	
Shipping Format and Condition	Lyophilized powder at room temperature.

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
