

Dengue-2 Envelope Hydrophobic Domain Recombinant

Item Number	rAP-5174
Synonyms	
Description	The Recombinant Dengue 2 Envelope Hydrophobic Domain e.coli derived contains 225 amino acids (228-485) from dengue 2 envelope. The protein is fused to a His tag at C-terminal and purified by standard chromatography techniques.
Uniprot Accession Number	
Amino Acid Sequence	
Source	E.coli.
Physical Appearance and Stability	Sterile Filtered clear solution. Dengue 2 Envelope Recombinant although stable at 4°C for 1 week, should be stored below -18°C. Please prevent freeze thaw cycles.
Formulation and Purity	PBS. Protein is >95% pure as determined by 10% PAGE (coomassie staining).
Application	Immunoassay.
Solubility	
Biological Activity	
Shipping Format and Condition	Lyophilized powder at room temperature.

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
