

Hepatitis B Surface Antigen, adr CHO Recombinant

Item Number	rAP-5205
Synonyms	
Description	Recombinant HBsAg adr produced in CHO cells, the molecular weight is approximately 23-27kDa.
Uniprot Accession Number	P30019
Amino Acid Sequence	
Source	CHO.
Physical Appearance and Stability	Sterile Filtered clear solution. HBsAg Should be stored at 4°C, DO NOT FREEZE.
Formulation and Purity	Sterile Filtered solution containing 20mM PB and 154mM NaCl, pH 7.1. Greater than 95.0% as determined by RP-HPLC.
Application	
Solubility	
Biological Activity	
Shipping Format and Condition	Lyophilized powder at room temperature.

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
