

Hepatitis D Virus Recombinant

Item Number rAP-5316

Synonyms

Description The E.Coli derived recombinant protein contains the HDV immunodominant regions.

Uniprot Accession Number

Amino Acid Sequence

Source

Physical Appearance and Stability HDV although stable at 4°C for 1 week, should be stored below -18°C. Please prevent freeze thaw cycles.

Formulation and Purity 50mM Tris pH 8 and 8M urea. Protein is >95% pure as determined by 10% PAGE (Coomassie staining).

Application

Solubility

Biological Activity

Shipping Format and Condition Lyophilized powder at room temperature.

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
