

Mouse Monoclonal Antibody to PER3

Catalogue Number	sAP-1052
Target Molecule	Name: PER3 Aliases: GIG13 MW: 132kDa Entrez Gene ID: 8863
Description	This gene is a member of the Period family of genes and is expressed in a circadian pattern in the supra-chiasmatic nucleus, the primary circadian pacemaker in the mammalian brain. Genes in this family encode components of the circadian rhythms of locomotor activity, metabolism, and behavior. Circadian expression in the suprachiasmatic nucleus continues in constant darkness, and a shift in the light/dark cycle evokes a proportional shift of gene expression in the suprachiasmatic nucleus. The specific function of this gene is not yet known.
